

Jiangsu Eastern Shenghong: 2024Q1 Results and Provision for Asset Impairment

Suzhou City, China, April 29, 2024

Jiangsu Eastern Shenghong Co., Ltd. (the "**Company**") today reported financial results for the first quarter of 2024.

- During the reporting period, the Company achieved revenue of RMB 36,738,885,261.85, an increase of 24.34% over the same period last year (after adjustment), net profit attributable to shareholders of the listed company of RMB 246,888,251.61, an decrease of 66.53% over the same period last year (after adjustment). The changes in revenue was mainly due to the new project put into operation. The changes in profit was mainly due to the narrowing price difference of certain products and the increase of costs rising by depreciation and corresponding financial expenses of the ongoing construction capitalization.
- The provision for impairment of assets for the first quarter of 2024 decreased the total profit of the Company's consolidated financial statement for the first quarter of 2024 by RMB 551.1400 million. The Company conducted impairment testing of various assets as of March 31, 2023. Based on the testing results, the Company made provisions for impairment for assets where impairment indicators were identified.

1. Key accounting data and financial indicators

	This reporting period (2024.01-03)	Last reporting period		Increase or decrease YoY
		Before adjustment	After adjustment ¹	After adjustment

About Jiangsu Eastern Shenghong Co., Ltd.

Led by a visionary management team, Shenghong has established leading positions in business segments including renewable energy materials, performance chemicals, petrochemicals, and chemical fiber industries. Underpinned by its leading position and high brand awareness, the products are widely adopted in downstream applications. In particular, Shenghong is a pioneer in the renewable energy materials and performance chemicals sector, and it intends to continually invest in this sector to capture its strong growth potential.

At present, the Company has the 16 million tons/year refining and chemical integration unit, 2.4 million tons/year MTO unit and 700,000 tons/year PDH unit, realizing the full coverage of three olefin production process routes, namely, "oil head", "coal head" and "gas head". Through the differentiated and diversified layout of raw material sources of "oil, coal and gas", the Company has more options and possibilities in terms of comprehensive cost control, coping with the risk of cyclical fluctuations, new product research and development, and process route selection of downstream high-end petrochemical products, building a solid foundation for the Company to further play the advantages of scale operation, reduce the operational risk caused by cyclical fluctuations of the industry, and better realize anti-cycle and cross - cycle steady development.
